

The map displays the Valle dell'Aia area, featuring seven water treatment plants (WTG.01 to WTG.07) and their respective catchment areas. The catchment areas are color-coded: yellow for the plants and blue for the surrounding areas. The map includes contour lines, roads, and settlements. A scale bar at the bottom right indicates 0, 500, and 1,000 meters. A north arrow is located in the top right corner.
