

A photograph of a large, mature tree with a thick, textured trunk and a dense canopy of green leaves, standing in a wooded area. The tree is the central focus, with its branches spreading out in all directions. The background is filled with more trees and foliage, creating a lush, green environment. The lighting is soft, suggesting a shaded forest setting.

A photograph showing a row of young, well-maintained trees, likely larches, in a nursery or plantation setting. The trees are planted in individual mounds of soil, and their trunks are supported by stakes. The foliage is dense and green, and the background shows more trees and a clear sky.

The diagram shows a layout of trees in a landscape. There are two large trees at the back, labeled 1 and 2. In front of them are two medium-sized trees, labeled 4 and 4. In the center are two smaller trees, labeled 3 and 3. In the foreground are six small trees, labeled 6, 5, 6, 5, 6, and 6 from left to right. Below the trees is a horizontal line with distance markers. The markers are: 1m, 1m, 1m, 1m, 1m, 1m, 1m, 1m, 1m. Below these are two longer markers: 2m (spanning the first two 1m segments) and 2m (spanning the last two 1m segments). At the bottom is a single long marker: 6m (spanning the entire width of the tree arrangement).

9-10 m

LEGENDA:

1. *Celtis australis*, (Bagolaro)
2. *Quercus Ilex* (Leccio)
3. *Pistacia lentiscus* (Lentisco)
4. *Euphorbia characias* (euforbia cespugliosa)
5. *Rhamnus alaternus*, (Alaterno)

Prospetto

asse d'impianto

A close-up photograph of a borage plant. The image shows several bright blue, five-petaled flowers. Each flower is surrounded by large, papery, veined bracts that are a mix of white and deep purple. The bracts have a fuzzy, hairy texture. The background is a soft-focus green, suggesting foliage.

A close-up photograph of a red clover flower. A bumblebee is perched on the flower, its head buried in the petals as it feeds. The flower is a vibrant red color, and the surrounding leaves are green. The background is slightly blurred, showing more green foliage.
