In last century the electrical concessionaire built in PIAVE river and its tributaries' valleys huge hydro electrical plants which have negatively conditioned the hydraulics and geotechnics of the land often causing catastrophic effects the worst of which has been the tragic VAJONT' disaster_

Nowadays TERNA monopolistic concessionaire of power transmission is planning the renovation of the whole of PIAVE electrical power line which mainly consists in a new AAT 380kv line_

TERNA is proceeding to design such project with arrogance and ignorance of any safety of Environment_

In order to guarantee the safety of Environment citizens of the MIDDLE PIAVE valley have joined in a PEOPLE'S COMMITTEE which shall monitor the concerning circumstances shall promote information of resident people and shall lobby TERNA and government authorities_

Therefore the P. COMMITTEE does hereby kindly urge THE ALPINE CONFERENCE on the strength of the ALPINE CONVENTION art. 2 General Obligation paragraph 2 subsection k and else to intervene on any concerned organization (political governmental public administration authority and else) in order that they perform all the necessary actions to achieve that the renovation of the whole of PIAVE electrical power line be executed with the most upgraded state of art technology for the purpose of minimizing any negative effect on Environment which is asset of the Country and moreover of the resident people who live it and take care of it_

In said intent the P. COMMITTEE does hereby kindly request to meet the ALPINE CONFERENCE and or its executive representatives in order to adequately present the said problem and the actions that the P. COMMITTEE intends to carry on in this regard_

Looking forward to acknowledge that this ALPINE CONFERENCE be favourably accepting the present request the P. COMMITTEE expects the relevant outcomes_

Yours faithfully_

The PEOPLE COMMITTEE MIDDLE PIAVE
