Oggetto: Stop Montenegro Oil Drilling in Adriatic

Please urge Montenegro government to stop their drilling project in Adriatic. Italy, Croatia, and Montenegro depend on fishing, tourism and real estate industry. Even the smallest oil spill can change the face of Adriatic Sea forever. We can not let another Gulf of Mexico happen in our backyard. I want to still be able to share the beauties of Adriatic with my friends all over the world! I want my children to enjoy our beautiful sea for many years to come; this is our greatest treasure....
