

Activity: PROCESSING Chemical: JET FUEL

1. 16300 Chemical accident in Kuwait with jet fuel a-1

General accident information	
Class/Quality	****
Year	2000
Summary	After attempts to restart operations at a Jet fuel unit at a refinery shut since 1990 an Explosion occurred causing 6 casualties
Country	KWT
Activity	PROCESSING
Location	REFINERY
Chemicals	Hydrocarbons (gas), Hydrogen sulphide (h2s), Jet fuel a-1
Cause	Unknown-cause
Fatalities/Injuries	2 / 4
Occurrences or events	Human-operations, Release, Explosion

2. 7223 Chemical accident in India with hydrocarbons

General accident information	
Class/Quality	****
Year	1984
Summary	Explosion at refinery caused Fire which spread to storage Tank and exploded causing At least 14 casualties
Country	IND
Activity	PROCESSING
Location	REFINERY
Chemicals	Aviation fuel, Hydrocarbons (pressurized), Jet fuel jp-5, Lpg, Naphtha, Naphtha petroleum, Petroleum
Cause	Unknown-cause
Fatalities/Injuries	4 / 10
Occurrences or events	Penetrate/Puncture, Vaporize, Ignition, Explosion, Blast-wave, Damage, Fire, Explosion, Fire, Fire fighting/Emergency response
