

This technical drawing illustrates a road layout with vertices 7 through 15 and curves 8 through 11. The drawing includes stationing data and labels for various road features.

Vertices and Curves:

- Vertex 7: Located at the start of the layout.
- Curve 8: Located between Vertex 7 and Vertex 8.
- Vertex 8: Located at the start of the main road segment.
- Curve 9: Located between Vertex 8 and Vertex 9.
- Vertex 9: Located at the start of the main road segment.
- Vertex 10: Located at the start of the main road segment.
- Vertex 11: Located at the start of the main road segment.
- Vertex 12: Located at the start of the main road segment.
- Vertex 13: Located at the start of the main road segment.
- Vertex 14: Located at the start of the main road segment.
- Vertex 15: Located at the end of the main road segment.
- Curve 10: Located between Vertex 12 and Vertex 13.
- Curve 11: Located between Vertex 14 and Vertex 15.

Stationing Data:

The drawing includes stationing data for various points along the road. Key stationing values include:

- Station 10+000: Located at the start of the main road segment.
- Station 10+050: Located at the start of the main road segment.
- Station 10+100: Located at the start of the main road segment.
- Station 10+150: Located at the start of the main road segment.
- Station 10+200: Located at the start of the main road segment.
- Station 10+250: Located at the start of the main road segment.
- Station 10+300: Located at the start of the main road segment.
- Station 10+350: Located at the start of the main road segment.
- Station 10+400: Located at the start of the main road segment.
- Station 10+450: Located at the start of the main road segment.
- Station 10+500: Located at the start of the main road segment.
- Station 10+550: Located at the start of the main road segment.
- Station 10+600: Located at the start of the main road segment.
- Station 10+650: Located at the start of the main road segment.
- Station 10+700: Located at the start of the main road segment.
- Station 10+750: Located at the start of the main road segment.
- Station 10+800: Located at the start of the main road segment.
- Station 10+850: Located at the start of the main road segment.
- Station 10+900: Located at the start of the main road segment.
- Station 10+950: Located at the start of the main road segment.
- Station 11+000: Located at the end of the main road segment.

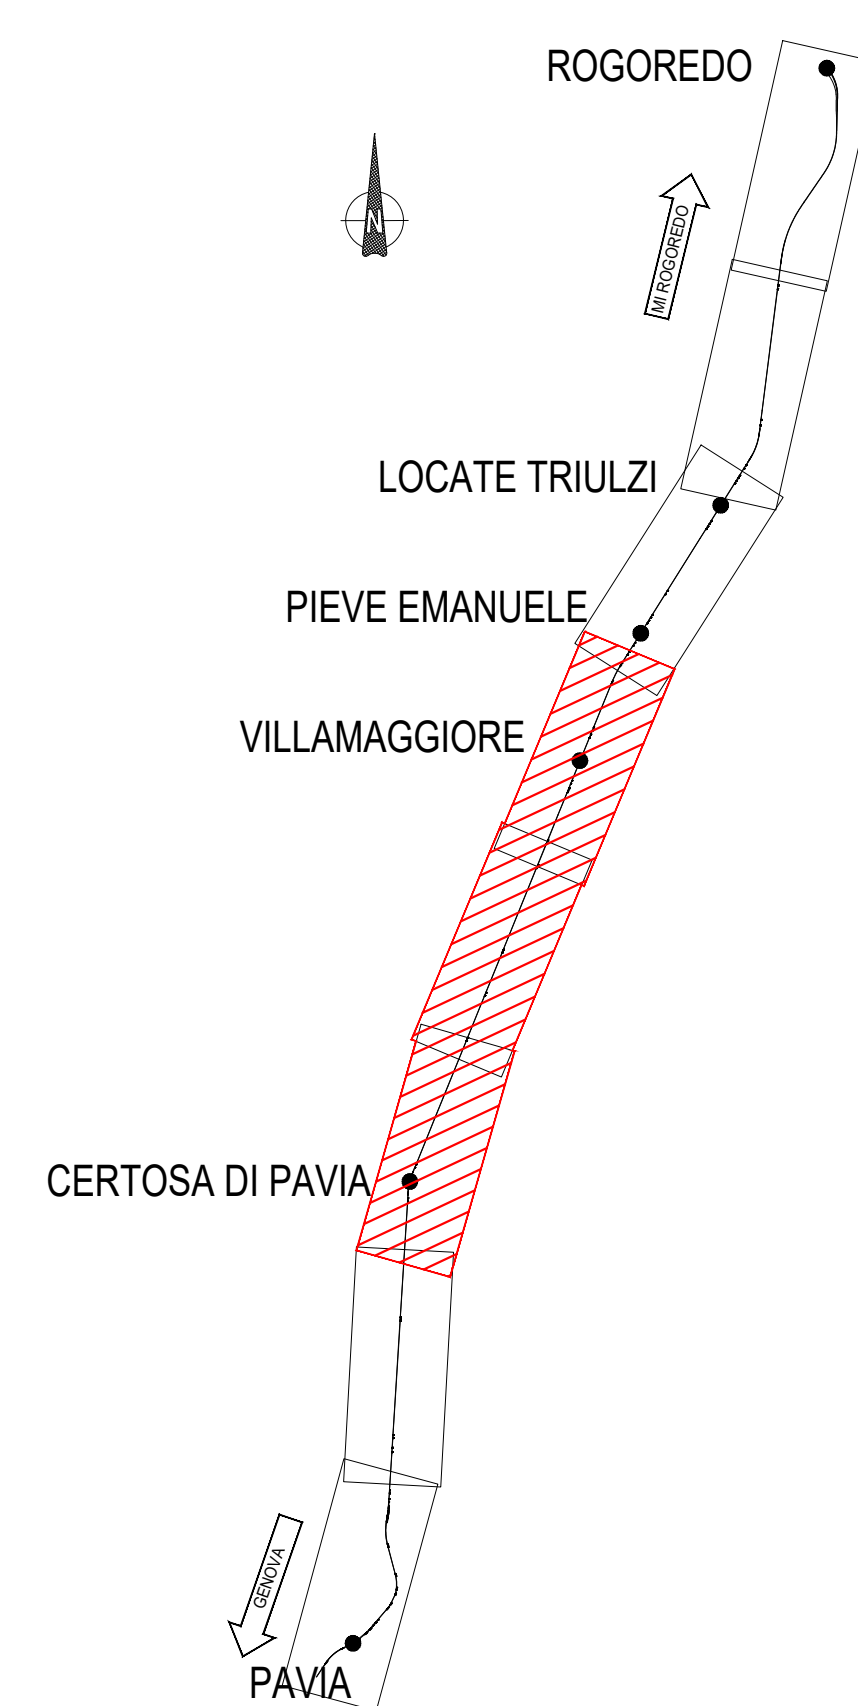

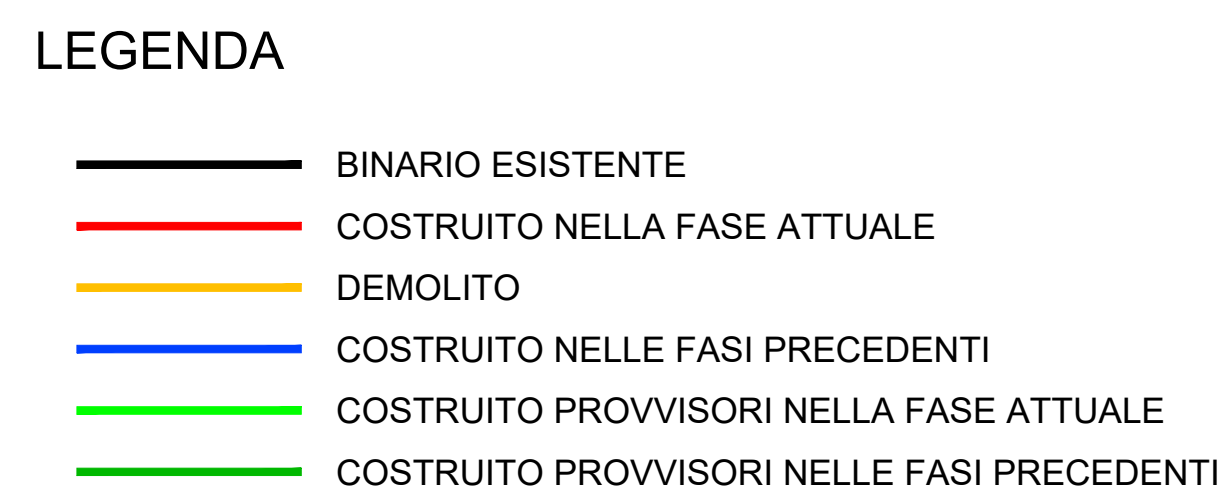

Other Labels:

- MI ROGOREDO: Located at the bottom left of the drawing.
- PAVIA: Located at the bottom right of the drawing.

This technical drawing illustrates a road layout, possibly for a railway or tram system. The drawing shows a curve labeled 'Curva 19' and a straight section. Key features include:

- Curva 19**: A curve in the road layout.
- Vertice 23**: A vertex or intersection point.
- Guinzano**: A location or area.
- Azienda Galbani**: A specific area or facility.
- FERMATA CERTOSA DI PAVIA**: A station or stop.
- viale 10** and **viale 27**: Roads or paths.
- Strada Provinciale 27**: A provincial road.
- PAVIA**: The city or region.

The drawing also includes a compass rose and a scale bar.
