

Technical drawing of a roof structure showing a cross-section. The drawing includes dimensions for the roof pitch, eave height, and structural components. Key dimensions include a total width of 16.20, a central span of 14.60, and a peak height of 6.20. The drawing is divided into three sections labeled A, B, and C. Section A shows the left eave with a height of 4.00 and a width of 0.80. Section B shows the central peak with a height of 6.20 and a width of 14.60. Section C shows the right eave with a height of 4.00 and a width of 0.80. The drawing also shows a cross-section of the roof structure with a pitch of 1:4.00 and a total height of 6.20. This architectural section drawing illustrates the structural layout of a building facade, including the roof, floor slabs, and foundation. The drawing is divided into five vertical bays, numbered 1 to 5 from right to left. Key features include:

- Roof Structure:** A continuous roof slab is shown with a height of 6.20m above the ground level. The roof is supported by a series of vertical columns.
- Floor Slabs:** The ground floor slab is at +0.00m (Piano Terra). The first floor slab is at +4.30m (Solaio Sala Quadri). The roof slab is at +6.20m (Coperchia).
- Columns:** The columns are shown in cross-section, with dimensions indicating their width and height. The columns are spaced at 6.95m intervals.
- Dimensions:** The drawing includes numerous dimensions for the various components, such as column heights (4.30m, 4.50m, 4.15m), slab thicknesses (0.15m, 0.10m), and column widths (0.30m, 0.35m, 0.40m).
- Levels:** The drawing shows the following levels: +6.20 - STR - Coperchia, +4.30 - STR - Estradosso Solaio Sala Quadri, +0.00 - ARC - Piano Terra, -0.15 - STR - Estradosso Fondazione, -1.50 - STR - Piano Posa Fondazione, and -1.50m.

A diagram of a square frame with a diagonal brace. The frame is supported at the top-left corner by a pin support, indicated by a vertical line and a horizontal line meeting at a point. The frame consists of four vertical members and four horizontal members. A diagonal brace is shown in the bottom-left corner, connecting the bottom-left corner to the top-left corner. The brace is represented by two parallel lines.
