

- LEGENDA**
- Pilastrino piano terra indagato n.
  - Pilastrino piano interrato indagato n.
  - Trave copertura indagata n.
  - Trave piano terra indagata n.
  - Solaio indagato n.
  - IMSn = Indagine magnetometrica n. (pachometro)
  - ▲ Cn. = Prelievo di carota in calcestruzzo (n. cm. Altezza del prelievo dal piano di appoggio)
  - ▲ An. = Prelievo di barra di armatura n.
  - ← ISn. = Indagine sclerometrica
  - Barra di armatura rilevata direttamente
  - \*Barra di armatura rilevata con indagine magnetometrica in modalità *imagescan*
  - \*\*Barra verticale/longitudinale o staffa rilevata in modalità *quickscan*

\*La modalità *imagescan* consente, oltre al rilievo, anche l'acquisizione di immagini scanner del calcestruzzo con apposito software, permettendo in alcuni casi, di effettuare la stima delle barre di armatura.  
 \*\*La modalità *quickscan* consente solo il rilievo della disposizione delle barre di armatura.
