Section of the report	Proposal to amend the text	Comment/remark
<b>Chapter 1</b> – Framework and Programme background		
<ul style="list-style-type: none"><li>• General presentation of the cooperation area</li></ul>		
<ul style="list-style-type: none"><li>• The SEA procedure</li></ul>		
<ul style="list-style-type: none"><li>• Structure of the environmental report</li></ul>		
<ul style="list-style-type: none"><li>• Presentation of the Programme strategy</li></ul>		
<b>Chapter 2</b> - Context analysis, environmental indicators, and characteristics of the area to be significantly affected		
<ul style="list-style-type: none"><li>• Climate change adaptation and associated risks</li></ul>		
<ul style="list-style-type: none"><li>• GHG emissions</li></ul>		
<ul style="list-style-type: none"><li>• Inland water quality and supply</li></ul>		
<ul style="list-style-type: none"><li>• Inland and biodiversity and ecosystem</li></ul>		
<ul style="list-style-type: none"><li>• Marine ecosystem and natural resources</li></ul>		

• Soil quality and land use		
• Technological risks		
• Air quality and Health		
• Energy		
• Waste management		
<b>Chapter 3</b> - Integration with other environment and sustainable development policies in the cooperation area		
• Coherence with the community-level policies		
• Coherence with strategic policies for the cooperation area		
<b>Chapter 4</b> - Environmental protection objectives		
<b>Chapter 5</b> - Likely significant effects on the environment		
• Methodology for assessment		
• Interactions between the programme and environmental objectives		
• Environmental effect of priority axes		
• Environmental cumulative and transnational effects		
<b>Chapter 6</b> - Elements for an Appropriate assessment of Natura 2000 sites		
<b>Chapter 7</b> - Recommendation for a better environmental integration		
• Measures to prevent, reduce and offset adverse effects		
• Measures to promote, diffuse environmental best practice		
<b>Chapter 8</b> - Follow-up for the implementation phase		

• Environmental indicators		
• Provisions for an environmental monitoring system		
<b>Chapter 9 - Conclusion</b>		
• Information of potential alternatives and justification of the Programme choices		
• Quality of information and rationale for analysis		
<b>Appendix 1 – Non technical summary</b>		

**Additional general comment :**
