PROFILI LONGITUDINALI PROGETTO

A black and white photograph of a long, low-profile train, possibly a freight train, moving from left to right across a landscape. The train is positioned in the lower half of the frame, with its length stretching towards the horizon. In the background, there are rolling hills or mountains under a clear sky. The foreground is mostly open land with some sparse vegetation.

A panoramic view of a landscape featuring rolling hills, a winding road, and a small building.

A black and white photograph of a long, narrow boat, likely a gondola or similar traditional vessel. The boat is oriented horizontally across the frame, with its bow pointing towards the left. Numerous oars are suspended vertically from the side of the boat, their blades pointing downwards. The boat is docked at a wooden pier, which is visible in the background. The water surface is calm, reflecting the light. The overall composition is a wide-angle shot, capturing the length of the boat and the surrounding environment.
