REMARKS:

- for further information see relevant ENR 2 sections.
- In presence of eruptive activity of the Etna volcano refer to the appropriate sections of Catania CTR and Reggio Calabria CTR (ENR 2.1.2).
- Due to the presence of the Sicily Strait, the projection of the sector D020 on the ground of the Sicily Strait is not coincident with the ground of the water, the projection of the sector D020 on the ground of the Sicily Strait is considered as the ground of the Sicily Strait.
- CATANIA VFR routes:
 - * Turn shall be executed within 2 NM South of RWY extended centreline
 - Due to the presence of the Sicily Strait, the projection of the sector D020 on the ground of the Sicily Strait is not coincident with the ground of the water, the projection of the sector D020 on the ground of the Sicily Strait is considered as the ground of the Sicily Strait.
 - CATANIA VFR routes:
 - a) unless otherwise restricted by ATIS, all VFR traffic using RWY 08 for operations and intending to proceed northbound, shall by RWY heading 180 crossing 1000 FT clearance before executing a left turn to join VFR exit route
 - b) VFR route from Capo di Trapani - Catania AD shall be above 2000 FT AMSL only, if unable to, will be required to Misericordia.
 - Reported altitudes in VFR routes are the maximum usable.
