In base a quanto stabilito dal D.P.C.M. del 14 febbraio 2022, Allegato 1, § 4.3, i dati raccolti nel corso dello studio archeologico sono stati archiviati secondo gli standard descrittivi dell'ICCD, mediante l'applicativo appositamente predisposto, costituito dal template GIS "MOPR-MOSI" messo a disposizione dall'Istituto Centrale di Archeologia (http://www.ic_archeo.beniculturali.it/).

A corredo del file in formato QGIS – completo delle cartelle di progetto – si allega il seguente *Project Report* con elenco dei livelli raster e vettoriali contenuti nel template.
