

Table with 2 columns: 'INTERFERENZE COPERTURE (m)' and 'SISTEMI DI RIFERIMENTO'. It lists various geological units and their corresponding reference systems.

Legend (LEGGENDA) and list of geological units. The legend defines symbols for different types of deposits and tectonic units. The list of units includes: DEPOSITI ANTROPICI, DEPOSITI CONTINENTALI QUATERNARI, DEPOSITI ULTIQUINARI IN FORMAZIONE, UNITÀ SIN-OROGENE DEL MESSINIANO SUPERIORE, UNITÀ SIN-OROGENE DEL MIOCENE MEDIO-SUPERIORE, UNITÀ TETTONICA DI FRIGENTO, UNITÀ TETTONICA DEL FORTORE, UNITÀ TETTONICA DELLA DAUNIA, and UNITÀ A LIMITI INCONFORMI DEL PLOCENE.

Geological symbols and symbols for geological units. This section defines the symbols used in the profile and map for various geological features, including: SIMBOLI GEOLOGICI, SIMBOLI STRUTTURALI E TETTONICI, and SIMBOLI GEOLGICI. It includes symbols for cataclastic facies, stratigraphic limits, and different types of folds.
