

BARI

NAPOLI

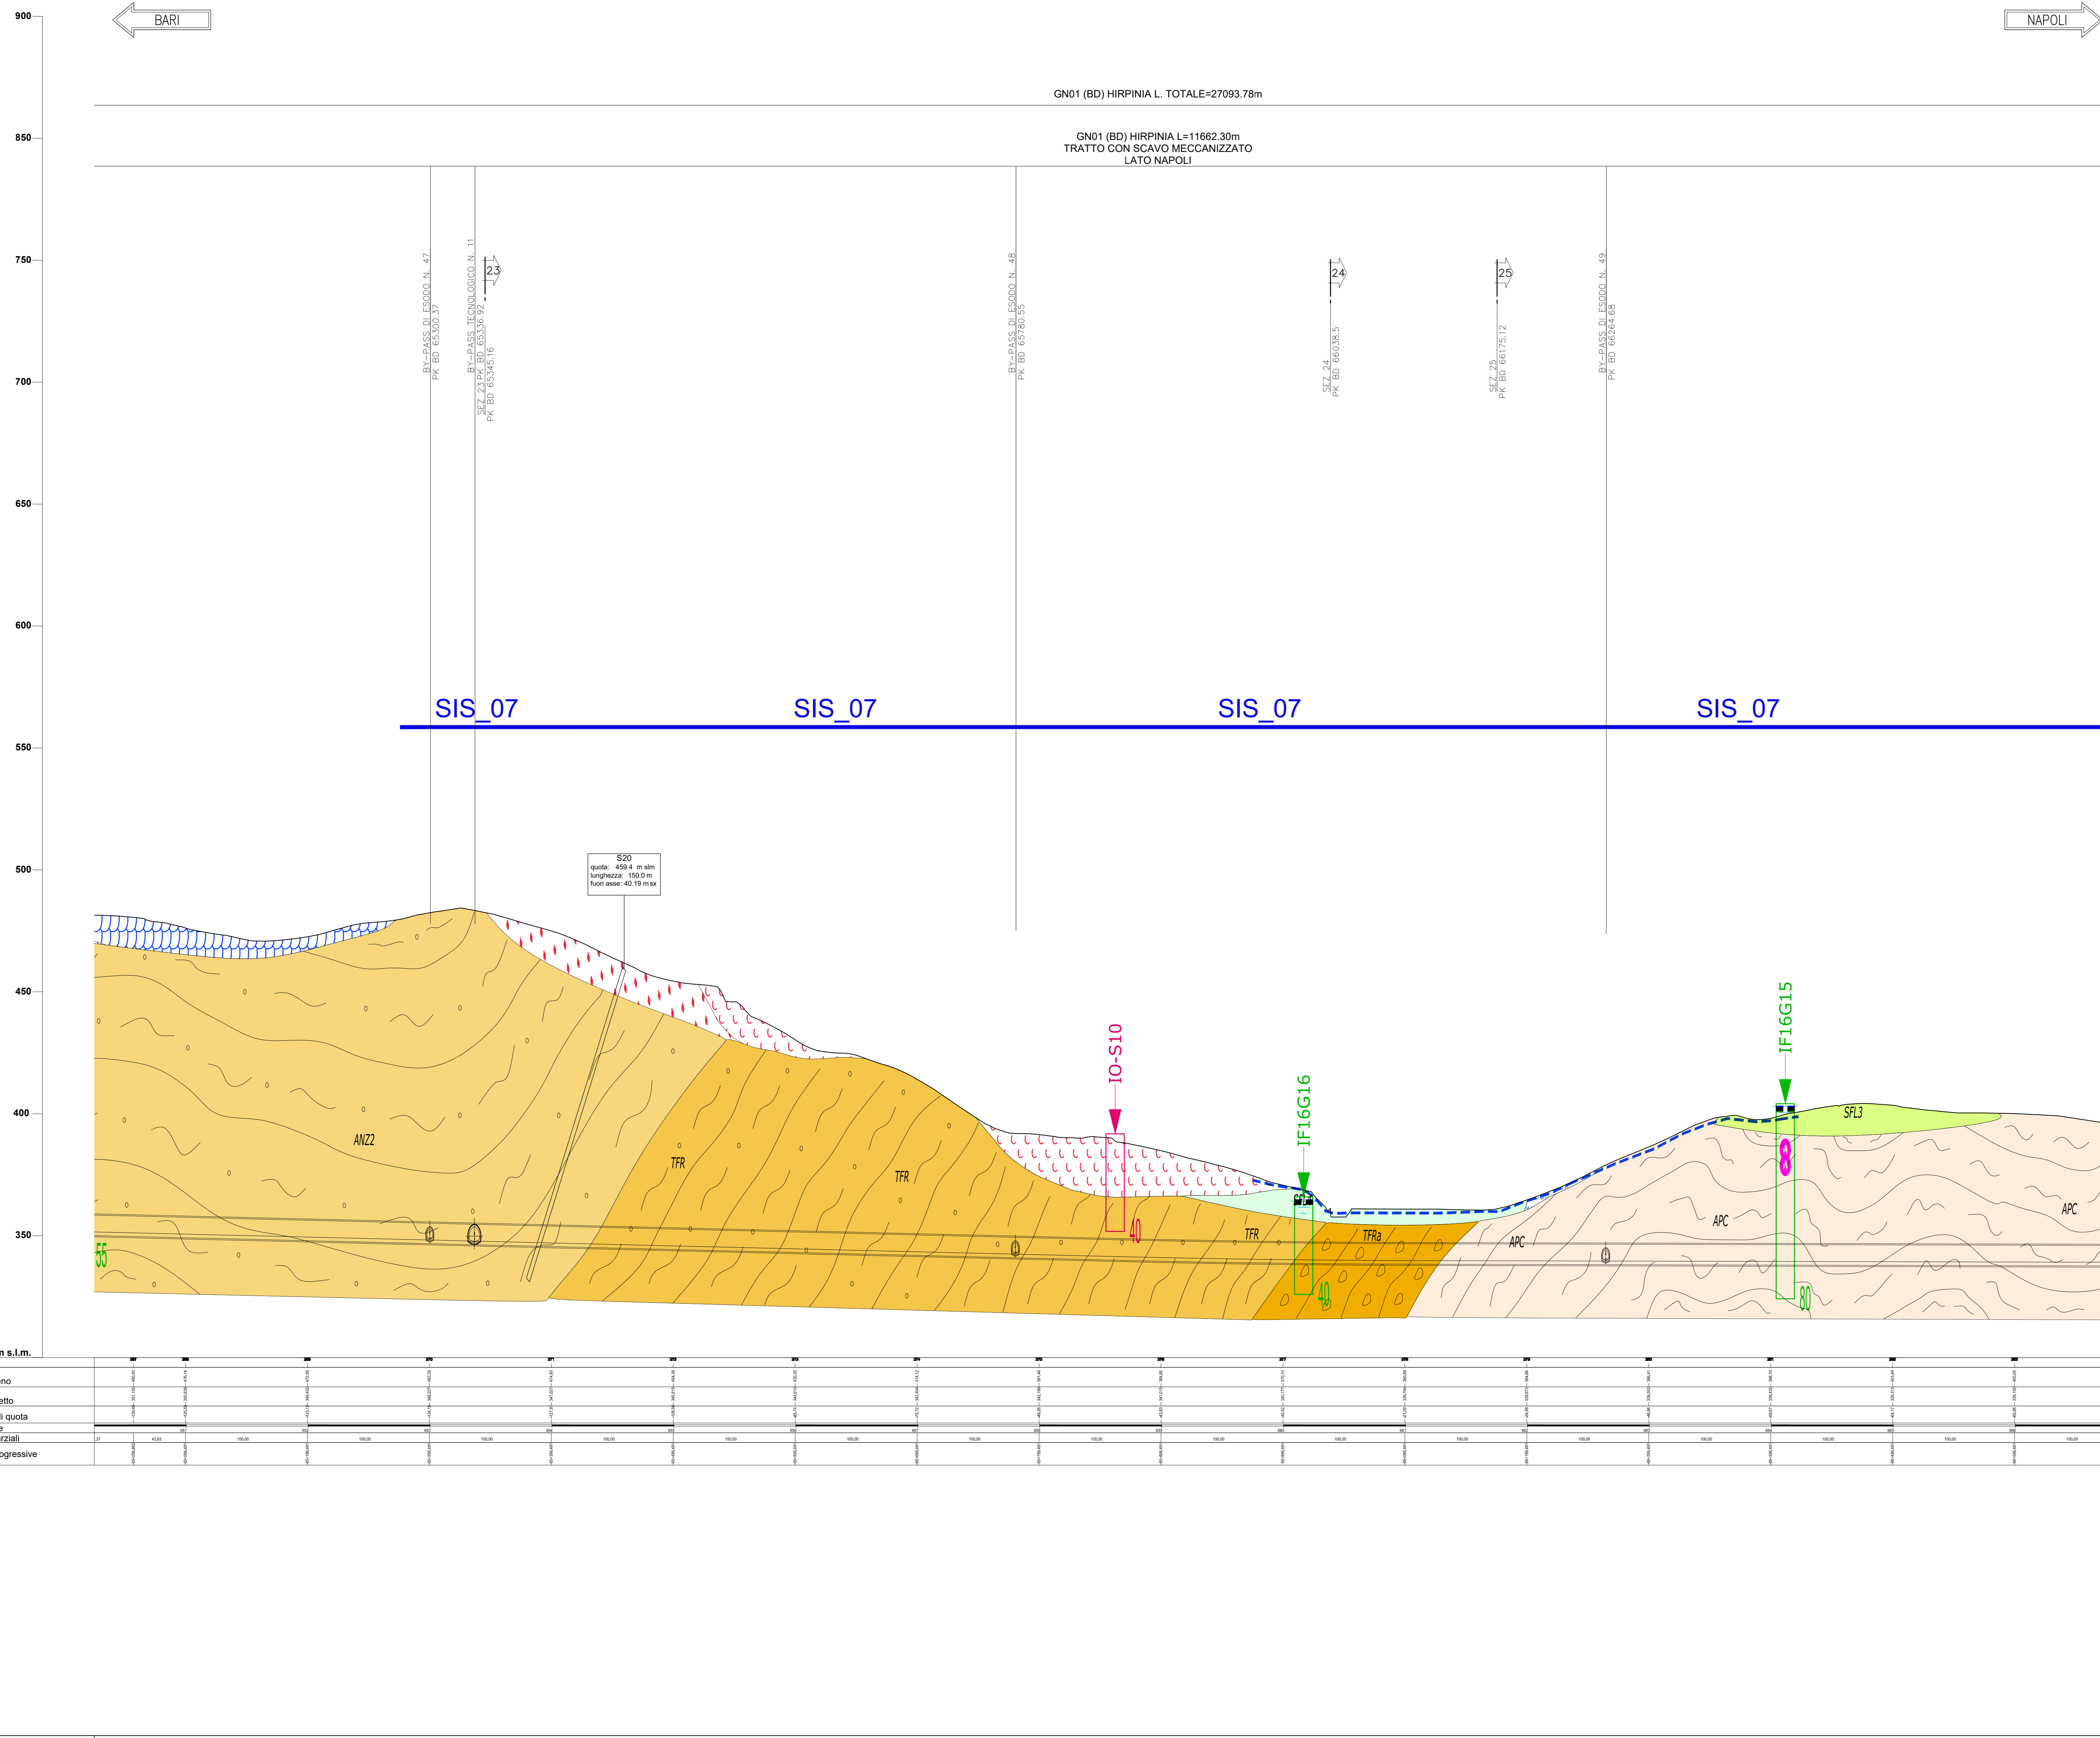

Table with 4 columns: Unit, Description, Lithology, and Notes. It lists various geological units such as 'Depositi alluvionali attuali (A)', 'Sistemi di Orsara', and 'Sistemi di Savignano Irpino', along with their lithological characteristics and stratigraphic positions.

LEGENDA section containing symbols for geological units, stratigraphic limits, and structural elements. It includes a list of units with their corresponding symbols and a key for stratigraphic and structural symbols.

UNITÀ SIN-OROGENE sections detailing specific geological units like 'Gruppo di Altavilla', 'Gruppo di Villanova del Battista', and 'Gruppo di Monte Arioso'. Each section provides a detailed description of the unit's composition, stratigraphy, and geological context.

SIMBOLOGIA section detailing symbols for geomorphological forms and processes, and a KEY-MAP showing the location of the study area in the region of Bari and Naples. It includes a legend for geomorphological symbols and a map with numbered points of interest.
